DOCTOR HOOFLAND'S
CELEBRATED
GERMAN BITTERS,
PREPARED BY
Dr. C. M. JACKSON, Phila'a, Pa.,
WILL EFFECTUALLY CURE
Liver Complaint, Dyspepsia, Jaundice,
Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach,
such as Constipation, Inward Piles, Fullness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c. Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article but one that has stood the test of a ten years trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from your own State is respectfully submitted, referring any who may still doubt, to my "Memorabilia," or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

Principal office and manufactory 120 Arch st., Philadelphia, Pa.

TESTIMONY FROM MAINE.

Capt. Albert Abbot, Franklin, Maine, July 10, 1854, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 24, 1854, say: "We therewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity and have no doubt of the truth of his story."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them in her case, and sent to your store and purchased one *bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK,
Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally—and by J. S. Ingraham, Bangor, W. B. Morrell, Dexter, E. B. Fisk & Lincoln.

KENNEDY'S

The Greatest of the Age!

MR. KENNEDY of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

Roxbury, Sept 19, 1853

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

G. W. STONE'S
LIQUID CATHARTIC
—AND—
FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine having been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

HARRISON'S
Columbian Tonic Stimulant

WILL cure all diseases caused by prostration of digestive power. Its action is immediate, as a stimulant to rouse the vital energy to its healthy force, as a tonic, to sustain and perpetuate that force till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Cholic, Fever, and Fever and Ague, and in connection with *Harrison's Columbian Vegetable Emetic*, will cure the most severe cases of these, and other acute diseases in the shortest possible time. The Dyspeptic finds immediate relief, and permanent cure, in its use. For all Bronchial and Pulmonary affections, it has great restorative effects.

The alcohol and opium inebriates will find it a perfect substitute for both these disease engendering and health destroying articles. It is an exclusively vegetable composition, and a pure tonic and stimulant, without the slightest disease properly in its composition or action on the system. The friends of Temperance then will find it an agent of great potency in their cause, and that the vitiated cravings of a diseased appetite under its use will give place to healthy action and natural desire. It is delicious to the taste, and grateful to the sensibilities of the stomach. It may be taken in its present form, a *rich syrup*, or in water, making a *delightful beverage*. As a daily beverage, its deliciousness is *unequalled* by any fermented or alcoholic preparation. It presents as well as cures disease. Its use is applicable in all climates, in all seasons, to all diseases, and in all conditions of life, and from extreme of infancy to extreme of age. Price $1.

HARRISON'S
Columbian Vegetable Emetic

Will withdraw and expel all diseased matter, solid fluid or gaseous, from all parts of the system. Besides its emetic properties, it is expectorant, alterative, and anodyne. It acts in each of its modes according to *nature*, relieves the laboring organism of diseased matter, and permits a free action of its natural functions to restore strength. It is the only *safe* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Billious Cholic, Dysentery, Pleurisy, and every other acute disease. It has great remedial power in all Chronic diseases. In both acute and chronic diseases, assisted by the invigorating and sustaining power of *Harrison's Columbian Tonic Stimulant*, cures are certain. Principles of treatment and directions for use accompany each medicine. Price 50 cts.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is first.

Hayes' Allied Ointment,
and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are to appreciate its operation. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of Humor, and really one of the greatest blessings of that kind ever before the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

Lawrence, June 14, 1854

We, the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr. E. D. Hayes, of this city, and being persons by acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for the medicine. Unlike other remedies in the market, this preparation performs its office speedily and with certainty. The Ointment we have used with the most happy result, after vainly seeking relief by the free use of Sarsaparilla, Salves, ect., ect.

Our experience fully justifies us in confidently recommending it as the article, and the only one known to us as performing all it claims.

It removes all those vexatious Pimples, Eruptions and Moth or Mi dew from the face, leaving the skin perfectly soft and smooth, adding great y to the beauty of complexion. Never, in no case, will it leave the least mark or scar. It will draw humors from the Stomach, Lungs, Throat, and from the Head and Eyes, by an outward application. It improves the sight wonderfully, where the eyes are troubled with humors, by removing the difficulty and restoring the sight.

The Foreign News.

The intelligence by the America, published in our telegraphic columns to-day, is the most important which has been received for months, although not of an unexpected character.

Sebastopol is at last taken—or so far taken as to render its entire and speedy reduction a matter of certainty—but at the same time, so extensively dismantled and destroyed as to render it doubtful whether the allies will find it tenable.

The southern forts are all in the hands of the Allies, or evacuated and blown up by the Russians; and all that remains of the town itself is also occupied by the Allies. The Russian fleet was destroyed by the Russians themselves. The northern forts were still in the hands of the Russians, but have probably been taken or evacuated ere this.

The grand bombardment and assault upon the Malakoff was made upon the 8th of September, and it was carried at a great cost of life—but exactly at *how* great a cost, is not yet known—although the aggregate loss on both sides is estimated at 30,000 men.

The reduction of this formidable fortress has thus required the strongest efforts of France and England for nearly an entire year. The allied troops landed on the Crimea, Sept. 18th, 1854—the battle of Alma was fought on the 21st—and the siege of Sebastopol may be said to have commenced on the 25th

This almost unparalleled siege has cost the allies probably more than a hundred millions of dollars, and 100 000 men. It is by no means certain that its capture will have an adequate effect upon the fate of the war. We look to see Russia withdraw her southern arm on to the interior, defy her enemies to advance, and refuse to make peace upon the terms which they will now feel themselves in a position to demand

NORFOLK AND PORTSMOUTH.—The first frost of the season, at these fever-stricken places, occurred on Monday night, 24th. The deaths in Norfolk on Monday were about twenty and in Portsmouth, seven. On Saturday and Monday no less than six physicians died, viz Drs Coque, of N. Y., Hilliard of Montgomery, Ala., Burns of Norfolk, Walters of Baltimore, Tunstell and Gordon, of Norfolk or Portsmouth.

A FOUNDLING. A Newport correspondent mentions a report that an infant a day or two old was left, with $25, in a bandbox, on board one of the railroad cars, a few days since—and that it was cared for by a benevolent lady of this city. We cannot vouch for the truth of the story.

A reverend gentleman in New York, a few Sabbaths since, seeing a poor woman tottering up one of the aisles of his church, waiting in vain for some one to offer her a seat, paused in his sermon, descended from the pulpit, showed her to his own pew, and quietly returned to his desk again.

Rev. J. H. Allen, of the Union St. Church in this city, was a passenger, we believe, in the steamship America from Liverpool. We hear that he would probably spend a short time in Massachusetts, before returning to the city.

SAD ACCIDENT.—We learn from the Maine Farmer, that a daughter of Alvin Palmer of North Wayne, aged 16 months, was drowned on the 17th The child had been missing a few moments, and was found lying on its face, in a tub of water, near the stable, and quite dead.

The present valuation of New York, according to the Report of the Comptroller is $480,998,000, or about four times the valuation of the whole State of Maine

THE GRAND CRISIS IN HUMAN AFFAIRS, the END SOON TO COME. By F. H. Berick of Lowell, Mass. Issued by request of the Advent Brethren

The "Advent Brethren" are still looking for the Second Coming of Christ—"the destruction of the wicked, the resurrection of the righteous dead, and translation of the righteous living"—with as strong a faith of the immediate consummation of all things, as they had twelve years ago. The author of the present volume says "We are now approaching a momentous crisis in human affairs" and "as our time is exceedingly limited," he desires to lay before the world, as speedily as possible, some additional evidence in regard to the prophecies, which he has discovered in history. The exact time of the end does not appear to be fixed by them, but we believe they have been constantly looking for it ever since the present war in Europe commenced—as they regard that struggle as the immediate precursor of the great battle of "Armageddon," which they interpret to mean the final struggle between despotism and democracy, after which they say the end comes.

It seems to us a very strange delusion under which these people are laboring, and one which is supported by a most singular mixture of literal and symbolical interpretation of the prophecies.—The ordinary events of nature—such as have been occurring for years since the commencement of history—as storms, pestilences and famines, and the various celestial phenomena—are in these days applied directly by them, as the fulfilment of ancient prophecy, and as so many "signs of the end." As time passes on, however, and the world continues to stand, the believers in these peculiar interpretations must at last yield their faith.

CINCINNATI CHIVALRY.—On Tuesday morning, two rich young sprigs of Cincinnati fought a duel about a young lady, of course. They fired three times without effect, when one of the seconds stepped forward, and declared that he himself was engaged to be married to the young lady about whom the principals were fighting. This announcement put a new face upon affairs, and all parties professed themselves satisfied, and the belligerants retired from the bloodless field.—*Boston Journal.*

THE STATE FAIR. The Maine Farmer says "From the number and class of entries, the State Fair at Gardiner will make a good beginning—and this is all perhaps that could be expected, considering the many obstacles.—Some splendid cattle have arrived, and the show of horses will be very fine."

The Banner says the fruit is remarkably fine, and the stock animals of a high grade. "We never saw so many superior horses in one company. On the whole, though the Exhibition is not large for a State Society, the articles average well, and promises future success."

The weather on the first two days was fine, but yesterday, the day for the trial of horses, was probably rainy there as well as here.

BANGOR HORTICULTURAL EXHIBITION.

Report of the Committee on Fruits.

The Committee on Fruits have found that since the last exhibition of the Society (1853,) their cultivation has been increased and improved in spite of many discouragements. In the autumn of 1853, warm and wet weather continued to a late period, extending the growth of trees with an active flow of sap, until it was suddenly arrested by severely cold weather. Frozen in this condition trees suffered injury, in which many natives of the forest shared, and the more tender fruit trees—cherries, pears, plums and even apples were killed or so injured as since to be fruitless. The extent of this damage was not fully developed until the following summer, when there was a drouth of almost unparalleled duration, further impairing the surviving trees and their fruit, and retarding or preventing the growth of trees newly set in the spring. Then, as a climax of discouragement, the last winter was quite unfavorable, heavy fall rains succeeding the drought of summer and continuing through much of the winter, in place of the snow which usually is a "warm blanket" to our soil, and causing the ground to be deeply frozen, with occasional partial thawings, and consequent heaving of trees and laceration of roots. The spring was wet and cold, destroying many fruit blossoms and the light crop of fruit grown this season has been peculiarly subjected to the attacks of insects and blight, both attributable to the character of the spring weather.

Notwithstanding, the Committee have pleasure in reporting this to have been the best exhibition of fruits (as a whole) ever made by the Society.

PLUMS,

Except in favored localities, were nearly all destroyed in the blossom, and did not appear in their usual abundance, yet there were dishes of choice kinds—Green Gage, McLaughlin, Jefferson, Washington, Imperial Gage, Columbia, etc., from the gardens of J. C. Stevens, A. Emerson, S. S. Low, S. Huse, J. Stubbs and others, that were never surpassed.

PEARS,

Had been planted in this vicinity extensively in number and variety, three or five years ago, but a large part of them as well as older trees were winter killed in 1853-4, yet more specimens were shown that at any former exhibition; among which those of the Bartlett, Flemish Beauty, Fulton, Louise Bonne de Jersey, Beurre d'Amalis, Bon de la Motte, St. Ghislain, Passe Colmar, and Easter Beurre were prominent. The St Ghislain, so far as tested, has proved quite hardy in a clay soil where nearly all others were winter killed, bears regular and abundant crops, is of first quality, though rather small, and is recommended for more general cultivation here.

OF APPLES,

There was a fine display as well in number of good varieties as in the perfection of each. The Committee award to Jefferson Stubbs of Hampden the thanks of the Society as well as its first premium, for such satisfactory proof as he exhibits of the capacity of our soil and climate to produce sixty good varieties of this most valuable of fruits, in beauty, flavor and every excellence nowhere to be surpassed. Wm. E. Goodale of Orrington, J. Sinclair of Legrant, and R. Harlow of Bangor contributed largely of fine specimens.

OF GRAPES,

The out-of-door culture may be restricted, by our short season to a few hardy and inferior varieties, but this conclusion ought not to be admitted until further and ample trial of the Isabella and other good sorts in sheltered positions and under good treatment, as well as the Concord and other supposed early varieties. By the use of glass, however, we can overcome the disadvantages of climate and short seasons, and attain success in grape culture. The luxuriant clusters of Black Hamburg and others, exhibited by Adam Sekinger from his cold grapery, are in all respects equal to those shown at exhibitions of older societies, and not less creditable to his skill than tempting and encouraging to others. The grapes from the houses of Messrs Stetson, Noyes, Emerson, etc., were very fine, although their vines are yet young.

The New Rochelle Blackberries exhibited by A. Noyes from plants this year imported, give promise that this variety will do well here and come into general cultivation.

Adverse as have been the circumstances and experience in fruit growing during the last two years, the Society should find encouragement to persevere. Such a season as that of 1853 4 is not likely to occur in many years. With all the loss and destruction sustained, enough results remain to show satisfactorily that in a series of years ordinarily favorable to fruit culture, rapid progress can and will be made, and the more valuable fruits be produced in rich variety and abundance. The costly experience of these two last years affords some suggestions worthy of regard: to choose such varieties of trees as shall be suited to the soil and location, and only such as are worthy of the care that must be given, where choice can be made, to prefer good soil in an elevated position, naturally drained, as less liable to injury by frost, by excessive moisture and its alternative drought and by blight, and where in the absence of choice, a stiff and retentive soil must be used, to drain thoroughly, and cultivate deeply, and avoid winter killing by so checking the late autumn growth that the wood may ripen well to its extremities.

Report on Vegetables and Miscellaneous Articles.

The Committee on Vegetables and Miscellaneous articles exhibited at the Horticultural exhibition, on Thursday, Sept. 20th, have to report:

That the general character of the exhibition of vegetables has been very good indeed, and in some particulars it has surpassed the shows of former years.

Time and space will not permit us to enumerate in detail all the varieties of the different species of vegetables which were examined. Besides those to whom premiums have been awarded, we have had the pleasure of inspecting the contributions of many, have added interest and usefulness to the exhibition in various ways, principally in this. They have demonstrated that Horticulture is rapidly becoming a pleasant, profitable and common vocation of the busy life of our citizens.

Messrs. D. S. Bradman, Eben French, A. Bittles, George Wiswell of Holden, S. B. Morison, J. Wells, Abel Kenney, Cyrus Goss, J. C. Stevens, Amos Jones, Asa Davis, Rufus Prince, Philip Weaver, Mrs. O. W. Gilman and Mrs. N. Swett, are of this number.

We award the following premiums:

To J. W. Carr for best display of vegetables, including largest variety,	$3 00
Francis H. Dufty for second do	2 00
John E. Godfrey, best lot of Melons	1 50
Francis H. Dufty, second do	1 00

J. C. Weston, best specimen Cauliflower,	1 00
W. C. Crosby, best twelve ears Sweet Corn	1 00
Orrin Favor, best box Honey,	1 00
J. W. Carr, second do,	50

As gratuities for articles not included in the published list of premiums, we award

To John Emerson, for finest and largest variety of seedling potatoes, 26 kinds,	2 00
Albert Noyes, seedling and other valuable potatoes, 11 varieties,	1 00

The beautiful traces of golden Canada Corn exhibited by T. G. Rich, the Silver Onions by J. W. Carr, Castor Bean by A. Lyon, Tall Southern Corn by T. G. Shaw, gigantic Cabbages and long and smooth Blood Beets by Mrs. S. Barker, curious Egyptian Corn and other vegetables by J. P. Sinclair, variety of Squashes by Wm Arnold, nine varieties of Tomatoes and Orange Watermelons by Albert Noyes, beautiful Egg Tomatoes and a bundle of Oats from a single seed by Charles T. Holland, Marrow Squashes by Albert Emerson, Sweet Potatoes by Jas. S. Bedlow, Mammoth Tomatoes by John Lowell and John Shaughnessy, Gourds by Master Wm. Crosby, Tobacco plants—one in flower, showing it to be more beautiful in its growth than in its use, by Wm. A. Garnsey, all prove that art can overcome many of the defects of climate and soil.

Important News!

Storming of the Malakoff.

CAPTURE OF SEBASTOPOL.

Loss of 30,000 Men!

The Russian Fleet Destroyed!

HALIFAX, TELEGRAPH OFFICE, }
Thursday, Sept. 27. }

The Steamship America from Liverpool on 15th inst. arrived here this A. M., due Boston, 2 o'clock Friday.

The bombardment was resumed on the 5th, and continued without interruption until the 8th, when the assault commenced

The French attacked the Malakoff, and the Careening Bay, and the English the Redan.

Six repulses were sustained by the French before the Malakoff, but on the 7th attempt they carried the work in splendid style, and hoisted their eagles on the Malakoff

The slaughter was terrible, and estimated at 2 000 English; and 15,000 French, and as many Russians, making the aggregate upwards of 30,000 men.

Five French Generals are reported to have been killed, including Gen. Bosquet.

During the night succeeding the assault the Russians evacuated the entire South side, first blowing up the defences, sinking all the ships, firing the town, and leaving nothing but smouldering ruins.

The Allies found immense material of war in Sebastopol.

It is reported that instructions have been sent to the Allied Generals, in the event of Gortchakoff seeking to capitulate, to demand that Russia shall surrender at discretion all the troops, stores and fortified places, including Odessa.

Another unsuccessful attempt had been made on the life of Louis Napoleon.

SECOND DESPATCH.

The America brings 160 passengers. She experienced heavy gales. Met Pacific going into Liverpool 15th. North Star arr at Southampton 12th. Union at Havre 8th.

Fall of Sebastopol.

But few details of the fall of south side of Sebastopol are yet to hand

On Saturday, Sept 8th, being twelve months from the landing at the Crimea, and 310 days since the opening of the siege batteries, a final and victorious assault was made on the Malakoff. The assault was preceded by a terrific bombardment, and a despatch from Gortchakoff which was permitted to transpire at Vienna and Berlin, saying "our works suffer," prepared the public for the result.

At noon of the 8th, the whole disposable force of the besieging armies moved forward in a fourfold attack. The extreme right of the French attack was directed against the Little Redan, which they carried, but had to abandon, at a fierce charge of the Russians

The second and principal assault of the French was against the Malakoff, which, after six repulses, they carried by storm and occupied the late of the day.

A third attack, made by the British against the Great Redan completely failed, for altho' they succeeded in gaining temporary possession of the salient angle of the work, they were speedily driven back, and the British loss is numbered at 2000 killed and wounded

The fourth portion of the assault was made by the French under Desalles against the Central battery, but also failed.

The other events of the siege are embraced in the following official despatches:

Capture of the Malakoff.

From Gen. Simpson Crimea, Sept. 8th, 11 P. M. The allied forces attacked the defences of Sebastopol this day at 12 The assault on the Malakoff has been successful, and the work is in possession of the French The attack of the English against the Redan did not succeed.

From Pelissier.

VARNA, Sept. 9th.

The assault upon Malakoff was made at noon on Saturday. Its redoubts and the Redan on the side of Careening Bay were occupied by our brave soldiers with admirable enthusiasm to the cry of *Vive l'Empereur!* We occupied ourselves with endeavoring to secure our position, and succeeded in this object at the Malakoff.

The Redan on the side of Careening Bay, could not be maintained, in face of the enemy's powerful artillery, which overwhelmed the first occupants of that work, which however our firm settlement in Malakoff will speedily cause to succomb, together with the Redan, which our brave Allies—the British—seized, attacking it with their habitual vigor. But here, as the Redan, as with our troops at the Redan on the side of Careening Bay. Our Allies were compelled to cede the work again to the powerful artillery and reserves of the enemy.

At the sight of our Eagles flowing on Malakoff, Gen. Desalles made two attacks upon the Central Bastion. These however did not succeed, and our troops retired to the trenches.

Our losses are serious and cannot yet be precisely indicated. They are, however, amply compensated by the capture of Malakoff—the consequences of which will be immense.

Six hundred and fifty soldiers and twenty-seven officers were taken prisoners in the Malakoff.

Evacuation of Southern Side.

From Gen. Simpson—

CRIMEA, Sept. 9.

Sebastopol is in possession of the Allies. The enemy during the night and this morning evacuated the South Side, exploding their magazines, and setting fire to the whole town.

All the men-of-war were burned during the night, with the exception of three Steamers which are plying about the harbor; and the bridge communication with the north side is broken down.

Our casualties are great. During the night the Russians have sunk all the remainder of the line of battle ships in Sebastopol harbor.

From Gen. Pelissier—

[illegible], Kamiesch, Sept. 8th, 3 A. M. Karabelnaia and the South of Sebastopol no longer exists. The enemy perceiving our solid occupation of Malakoff decided upon evacuating the place after having destroyed and blown up, by mines, nearly all the defences.

Having passed the night in the midst of my troops, I can assure you that everything in the Karabelnaia is blown up, and from what I could see, the same must be the case in front of our left line of attack.

This immense success does the greatest honor to our troops. Our losses during the day, after so many obstinate combats, must be considerable. To-morrow I shall be able to form an estimate of the result of this great day's work. A great portion of the honors of which are due to Generals Bosquet and McMahon.

Everything is quiet on the Tchernaya, and we are vigilant there.

Further from Gen. Pelissier—

Sept 9, 8 P. M. The enemy has sunk his steam vessels. The work of destruction continues under the fire of our mortars. As mines are successively sprung at different points, it is my duty to defer entering the place, which has the appearance of a great furnace.

Prince Gortschakoff being closely pressed by our fire has demanded an armistice to carry off his wounded.

The bridge near Fort St. Paul has been destroyed by the enemy. We are engaged in ascertaining the amount of our loss.

Everything is going on well. We are watching the movements of the enemy on the Tchernaya.

From Admiral Bruat—

CRIMEA, Sept. 9.

The assault upon Malakoff Tower was made yesterday at noon, and later, on the Great Redan, and Central Bastion. Gale from North West. The ships at anchor. The mortar boats to be enabled to fire, were obliged to enter Strelетzka Bay. They fired six hundred shells against Quarantine Bastion and Fort Alexander. Six English mortar boats, also at anchor in Streletzka Bay, fired about the same number of shells. Last night violent explosions and vast conflagrations made us suppose that the Russians were evacuating the town. To-day we ascertained that the Russian vessels had been sunk. The bridge was covered with troops retreating to the North side. After eight o'clock the bridge was destroyed; only a few steamers remained in the port, anchored near Fort Catherine. I approached this morning the Quarantine Battery, on board the Brandon, and ascertained myself that they are now evacuated; they have just blown up, and our soldiers have left their trenches and are spreading themselves in groups over the fortifications of the town, which seem to be totally deserted.

Sardinian Accounts.

General Marmora writes, that the Russians have withdrawn from the town, after having set it on fire, blown up all the public buildings and works of defence, and sunk their last ship.

Sardinians have lost forty men in the trenches.

Russian Account.

Accounts from St. Petersburg, giving the following from Gortschakoff, dated

SEBASTOPOL, Sept 8th, noon.

The enemy receives fresh reinforcements incessantly. The bombardment continues very violent.

Ten o'clock, P. M. The garrison of Sebastopol, after sustaining an infernal fire, were repulsed to-day, although six assaults were made, they could not drive the enemy from the bastion Korniloff. Our brave troops, who resisted to the last extremity, are now crossing over to the northern part of Sebastopol

The enemy has found nothing in the southern part but the bloody ruins which his attack has made. The passage of the garrison from the southern to the northern side has been achieved with extraordinary success, and our only loss on that occasion is about 100 killed. We left in the southern part only 500 men, grievously wounded

Subsequent Proceedings.

From Pelissier. Crimea, Sept 10th, 11 P. M. I inspected Sebastopol to-day, and its lines of defence. The mind cannot form an exact picture of our victory—the full extent of it can only be understood by an inspection of the place itself. The multiplicity of the works of defence, and the material means applied thereto, exceed by far anything hitherto seen in the history of war. The capture of the Malakoff, which compelled the enemy to fly before our eagles, already three times victorious, has placed in the hands of the allies an amount of material and immense establishments, the importance of which it is not possible to state exactly. To-morrow the allied troops will occupy the Karabelnaia and the town, and under their protection an Anglo-French commission will be occupied in making out a return of the material abandoned to us by the enemy. The exultation of our soldiers is very great.

Sept 12th, 11 P. M. The enemy has destroyed the remainder of his fleet. Nothing now remains afloat in the harbor.

Anticipated Battle. The allies are making preparations, in case of Gortschakoff attempting to reach Perekop, or to unite with Liprandi.

Losses of the Allies. The London Post says the English loss in the assault upon the Redan was 500 to 500 killed, and 1400 wounded, including 141 officers.

The Moniteur says that to the morning of the 11th, 4500 wounded, including 240 officers, had gone to the ambulances. Dead not ascertained—but probably short of 2000.

The Times correspondent writes that five French Generals were killed, besides ten superior officers. It is also said that Generals McMahon and Trocher have died of wounds, and that Basquet is either killed or wounded.

Rewards and Rejoicings.

Pelissier is created Marshal of France.

Paris was illuminated. A grand National Te Deum was celebrated by the Emperor in the Church of Notre Dame.

Queen Victoria sends an address of thanks to her army, and directs Gen. Simpson to congratulate Marshal Pelissier on his brilliant victory. Throughout France and England the rejoicing is immense

Armistice and Capitulation.

Paris correspondence says—

Pellessier asks for instructions in case Gortschakoff should ask to capitulate.

The reply reported is, that the Russians must surrender at discretion, lay down their arms, and give up to the Allies all their fortified places in the Crimea, including Odessa, with all their munitions of war, and without doing any previous damage thereto.

But Gortschakoff has not yet asked for terms.

Russian Statement.

A Russian paper, the Brussels Nord says—

The resolution of Prince Gortschakoff exhibits the energy of a great Commander. It saves Russia from an inextricable position into which a false interpretation of a point of honor would have thrust her. The Russian army concentrated on the North of Sebastopol, will henceforth have that unity of movement and action, which until now it has wanted.

Sebastopol of the South is replaced by Sebastopol of the North—a formidable position—bristling with innumerable guns, which a compact army henceforward will defend.

Impartial history will do justice to Gortschakoff, who, by avoiding a useless effusion of blood, has preserved here a Russian army trained to war, and placed that army in a position which enables him to command the situation.

France.

Another attempt has been made on the life of Napoleon. A man named Bellemarre fired two pistols at a carriage supposed to contain the Emperor, but which only contained some of the Empress' ladies. The event took place at the door of the Italian Opera. The would-be assassin was arrested, considered insane and sent to the asylum.

Denmark.

A letter from Berlin, of the 8th, says that Austria is said to have offered her mediation to Denmark in her difference with the United States. Doubts are entertained here as to whether the United States will consent to the compromise which Denmark intends proposing, of lowering the Sound Duties generally, but Prussia would be quite disposed to accept it.

Russia.

Telegraph despatches from St. Petersburg intimate that the Czar intends leaving on the 15th for Moscow and Warsaw, attended by Count Nesselrode, and it is thought he will arrange an interview with the King of Prussia.

The Allies are still supposed to be meditating an attack on Revel

There is nothing from Asia.

The Russians intercept communications.

Latest by Telegraph.

From London to Liverpool—to the Agent of the Associated Press *London, 11 A. M. 15th.*—Paris correspondence says it is reported that 25,000 men have embarked at Balaklava for the north of Sebastopol. Also that the Russians are in full retreat towards Perekop.

The Paris Debats has an editorial discussing whether Sebastopol is tenable by the Allies while the Russians are masters of the forts on the north side and fronting the sea. The Debats asserts it is quite tenable—the possession of Port Chersonese and of Balaklava superseding the necessity of entering the harbor

The Russian armies will probably continue in observation within their strong positions until the Allies give some signs of movement.—Hence all speculation as to the plan of campaign must be imaginary.

THE BALTIC.—A despatch from Dantzic, 14th says, Block ships are expected to be ordered home on Monday next.

LONDON A. M.—Prince Frederick of Prussia is on a visit to the Queen. London Times suggests the celebration of a day of national thanksgiving. It is rumored in Clubs to-day, that the allies found twelve hundred guns within the lines of Sebastopol, also that the Russians are falling back on Backshari Sera.

But French rumors say that Gortschakoff will certainly hold the north side to the last extremity. Also that the Allied Admirals have sent a despatch saying it is inexpedient to enter the harbor of Sebastopol until Fort Constantine is silenced. Probably the Allies will attack Fort Constantine from Fort Alexander and Artillery Bay.

[The market reports and money intelligence were not sent over the line last night.

AUBURN, Sept 26.—The K N Convention this evening, made the following nominations: For Secretary of State, J B Headly; Comptroller, Lorenzo Burrows; Attorney General, Stephen B Cushing; Canal Commissioner, S. S. Whalling; State Treasurer, Stephen C Clark; State Engineer, C. S. Seymour

NEW YORK, Sept. 26.—The Times correspondent at Utica, gives the following as the probable nominees of the Republican Convention

Preston King, Secretary of State, G. W. Patterson, as Comptroller, Abijah Mann, as Attorney General, A. P. Williams, or S. I. Burroughs, as Canal Commissioner, George Geddes or Oliver B. Lee, as State Engineer William Bailey as State Prison Inspector, Bradford R. Wood and Judge Shankland as Judge of Appeals. Moses H. Grinnell will probably be the permanent President of the Whig, and James S. Wadesworth (Dem.) of the Republican Convention

SMUGGLING "CONTRABAND OF WAR."—A Paris paper says the following circumstances have transpired quite recently

A merchant of Antwerp, commissioned by an American house, sends to Warsaw one hundred and twenty five bales of cotton. At Aix la-Chapelle a custom house officer caused one of the bales to be opened, and finds in it twenty four six shooting revolvers, twenty-four powder horns, and nine copper bullet moulds. Each of the one hundred and twenty five bales contain a similar deposit. The owner of this contraband cotton has been condemned to a fine of 100,000 thalers—$70,000. We are assured besides, that a few days previously a similar cargo from the same house and for the same destination had passed undetected through Aix la Chapelle. The Prussian custom house, depending upon the loyalty of the shippers, had not subjected it to a special examination

FROM NORFOLK AND PORTSMOUTH.—*Baltimore, Sept 26.*—Advices from Norfolk report an improvement in the health of both cities, the weather having had a favorable effect and [illegible] ing the number of new cases

There were but two new cases at Portsmouth on Tuesday, and four deaths. The new cases at Norfolk were twelve, and the deaths [illegible]

A WINDFALL. We are informed that a young lady, one of the assistant teachers in the Webster Grammar School of Cambridge has received information from the proper authorities in Para, Brazil, of the death, at that place, of a Mr. S., who has left property to her by will, to the amount of $70 000. This bequest, so unexpected, comes from a disappointed suitor of the lady, who, in despair at his rejection some eight years ago, wandered to South America and made a fortune there. The teacher referred to is a lady of estimable character, who has many qualities of head and heart that endear her to a large circle of friends who will rejoice at her good fortune.—*Telegraph.*

APPLES IN THE NEW YORK MARKET.—We do not remember when apples were so low in price in New York markets as they are now. A very fair fall pippin is selling at the rate of one dollar per bushel, and at wholesale at one dollar and a half to two dollars a barrel. This low rate (comparatively speaking) may be attributed in a great measure to the attention which has been directed to the culture of this most excellent fruit in this country, within the last few years. Those who have been instrumental, by this means, in promoting so desirable an end, have unquestionably conferred a blessing upon their countrymen.—*New York Courier.*

PERSEVERANCE. There was a marriage last week, in New Orleans, of two persons in the prime of life, in which the groom had been thrice a widower and the lady twice a widow.

THE TRIPLE EMPIRE.—Jean Paul Richter used to say, that the French had the dominion of the land, the English of the sea, and the Germans of the air. Had he lived to the present day he would have had quadruple, adding Judson & Co's light to the world. Lamp burning evenings at three mills an hour. See S. B. Brooks at the Hatch House.

Holloway's Ointment and Pills have effected another Wonderful Cure of Sore Legs. Anthony Harrison Beard, of Harlinsburg, Virginia, was a sufferer for twenty-eight years from sore legs, so bad at times that human nature could scarcely bear it, as they were covered with wounds and proud flesh. His friends had given up all hopes of his ever regaining the use of his limbs, as he was in so pitiable a state, especially as the doctors told him it was constitutional. Having heard from several people the good effects Holloway's Pills had produced in cases of this nature, he made up his mind to give them a trial, and after using them for a few weeks, he felt much better, and by continuing them for two months and a half, he was perfectly cured, after being 28 years a cripple, and considered beyond human aid.

California Steamers, Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices. [illegible] lbs. Baggage Free.

Leave New York in time to cross the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific steamers *without any extra expense*. This is the only line giving through tickets, including crossing the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure of night in open boats to fever and ague, and 23 miles of dangerous lake and river navigation over rocks and cascades.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure and short* passage without any detention on the Isthmus.

☞ *Tickets must be secured by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus secured can be obtained of the only authorized Agent for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,
No. 16 Broad Street, Boston.

Now is the Time to Use

Dr. Langley's Root and Herb Bitters, Compound Dock Root, Sarsaparilla, Prickley Ash, Wild Cherry, Dandelion, Mandrake, Rhubarb, "Root and Herb Jaundice Bitters."

Only 37 1-2 Cents for a Quart Bottle.
Only 25 Cents for a Pint Bottle.

Purify the Blood and you have health. Cleanse the Fountain and the streams will be pure.

Decidedly the greatest Medicine for the least Money in the world.

The Ladies all like them for they are sure to do them good.

The Root and Herb Bitters have cured the past year, 10,000 cases of JAUNDICE, 11,000 cases of LIVER COMPLAINT, 17,000 cases of DYSPEPSIA, 90,000 cases of BAD HUMOR, 25,000 cases of COSTIVENESS, 12,000 cases of PILES, 19,000 cases of COUGHS and COLDS, and have cured and benefited more than 100,000 persons besides.

Diseased liver—foulest of the two,
Was fought and conquered by great Langley's plan,
Next ghastly Jaundice, trembling fled the field,
By Langley's Bitters forced at last to yield—
Then dread Dyspepsia left the scene of strife,
Nor dared to face the glorious draught of life.
Bile, Headache, Humors, Piles and Costiveness,
Those dreaded ills which cause such wretchedness,
By Langley's Bitters, are forced to yield,
While Health and Strength united take the field.
Are you temperance folks—when this medicine is used,
No drink alcoholic is by it induced,
Nor need the fond mother feel anxious alarm,
To the tenderest infant it cannot do harm.

Pleasant to take and always does good.

R. R. R.

IMPORTANT PROCLAMATION!
A Great Mystery Explained.

In the year of our Lord 1847, in our capacities of analytical chemists, we discovered that by uniting certain vegetable agents, which had never before been used in medicine, we obtained properties possessing such a marvellous [illegible] power over PAIN, that the moment it was applied to the parts affected with pain, all uneasiness ceased. The most torturing pains were relieved in an instant, and the most violent spasms and irritations were soothed, and the system restored to perfect ease in a few minutes.

In 1849 we introduced this Remedy to the world under the name of

RADWAY'S READY RELIEF.

It has been used by hundreds of thousands throughout the United States, giving instant ease to all troubled with Pain or Sickness.

One application externally, or a few drops taken internally, will instantly free the sufferer from the most violent and terrible pains, and restore the weak, feeble, and prostrated frame to strength and vigor.

No person has ever used RADWAY'S READY RELIEF without deriving some special benefit in less than fifteen minutes after its use.

Let those who are now suffering any severe pains give it a trial, for in fifteen minutes they will enjoy ease and comfort.

RADWAY'S READY RELIEF

was the first and is the only remedy ever discovered that will stop the most torturing pains in a few seconds, and free the system from Rheumatic, Neuralgic, Nervous, and Miasmatic Disorders in a few hours. It will cure and protect the system against sudden attacks of

CHOLERA,	DYSENTERY,
DIARRHEA,	CHOLERA MORBUS,
BILIOUS CHOLIC,	FEVER AND AGUE,
PNEUMONIA,	INFLUENZA.

Bear in mind, it is a powerful Disinfectant, antacid, diffusive stimulant, nervine, anti-spasmodic, and counter irritant.

The R. R. REMEDIES are medical discoveries of the present century. They are prepared on an entire new and original theory, "to stop pain instantly," and protect the human system against any known or any sudden attacks. The doses required to be taken are small. A few drops of READY RELIEF exercise a powerful influence over diseased action.

IT HAS CURED
Rheumatism in four hours,
Neuralgia in one hour,
Croup in ten minutes,
Diarrhea in fifteen minutes,
Toothache in one second,
Spasms in five minutes,
Sick Headache in fifteen minutes,
Chill Fever in fifteen minutes,
Chilblains in five minutes,
Sore Throat in four minutes,
Influenza in one hour.

SPINAL COMPLAINTS, Stiff Joints, Cuts, Bruises, Wounds, Frost Bites, Cholera Morbus, Dysentery, Tic Doloreux, and all other complaints where there are severe pains, RADWAY'S READY RELIEF will instantly stop the pain, and quickly cure the disease.

[For the remarkable efficacy of R. R. R. Discovery, No. 2, and the complaints cured by Radway's Renovating Resolvent, see our next week's paper.]

R. R. Remedies are sold by Druggists everywhere. H. H. HAY, Druggist, Portland, general agent for the State of Maine.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV. WALTER CLARK,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough it frequently enables the sufferer to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

January 17th, 1855.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years. That bottle entirely removed it.

From Rev. Jesse Hoyt, Lewiston Falls.

Bro. Clark—I can say to the [illegible] Universal Cough Mixture which you left with me [illegible] I have several applications for more. [illegible] perfectly satisfied with the medicine. One man who had a [illegible] standing and [illegible] chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world and cannot be recommended too highly.

JESSE [illegible]

From Mr. Fletcher Chick, agent for North Dixmont, Maine.

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of years standing, and others who have been afflicted six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me.

January 1, 1854.

To Rev. Walter Clark—Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle which I began to take according to directions on the label, by which in a few days I was entirely cured.

DR. J. H. SCHENCK'S SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit:

Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Breast, Palpitation of the Heart, Ulcers and Eruptions of all kinds, Chills and Fever, Gravel, and Diseases of the Kidneys, Nervousness, Weakness of the Limbs, Fainting Spells, and all diseases peculiar to Females.

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it, and it is with feelings of pleasure that Dr. Schenck can announce to all such the discovery of the virtues of the Sea Weed, which is just the remedy for their ailments. Dyspepsia and the many diseases arising from it is caused by the deficient secretion of the gastric juices and weakness of the powers of the stomach. The effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice and the food is digested naturally. In fact the Tonic so nearly resembles the natural gastric juice that chemists even find difficulty in distinguishing them. It gives tone and strengthens the stomach, thus enabling it to secrete the proper quality and quantity of gastric juice, and Dyspepsia and all its diseases soon disappear.

It is a well known fact that those who suffer like the Dyspeptic, for in addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Diseases of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Taste, Fever, Stoppages in Females, all or each of them arising from a diseased state of the Stomach, and here is a newly discovered *remedy* for the trifling sum of one dollar that will cure all this train of diseases! Now, Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on? The choice is for you to make. The Sea Weed Tonic is a pleasant bitters giving a person a good appetite and good digestion. It is put up in quart bottles, always agrees with the stomach, and *one bottle* generally effects a cure. Whenever the bowels are costive, the tongue furred, or the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used. A box of these Pills accompany each bottle of the Tonic, and will be found in a recess of the bottle, covered with a label.

SCHENCK'S MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the liver and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develope all the results produced by a heretofore free use of calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the common roots and herbs of the fields.

These Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue.

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills combined is only one dollar. But separate boxes of Pills can be had of any of the agents for 25 cents.

These remedies are prepared under the personal supervision of Dr. J. H. Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c., &c., and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c.

DR. J. H. SCHENCK'S PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine [illegible] himself [illegible] every [illegible] to take his syrup [illegible] in the last stage of Consumption. When all hope [illegible] of ever getting well [illegible] he was [illegible] recommended to use a Syrup made from an old Indian receipt, which has succeeded in effectually curing him. The family physician [illegible] a large number of respectable gentlemen certified to the facts of the case, and soon the Pulmonic Syrup obtained a reputation never equalled [illegible] the country. Creating, as [illegible] a sensation second to that only of [illegible] Dr. Schenck was waited upon [illegible] administered the Syrup with the same beneficial results. In fact such was the [illegible] of this medicine that [illegible] toward the [illegible] witness [illegible] extended the hand of [illegible] Dr. Schenck, and [illegible] the medicine [illegible] and used it in their practice.

No other medicine [illegible] to the system in the manner that the Pulmonic Syrup does. It promotes a healthy [illegible] parts, by purifying them from [illegible] the expectorations, and the cough ripens the matter on the lungs, and when it is discharged, it heals thus opening that the breaking of the tubercles or abscess produces, and the lungs become sound and resume the performance of their natural functions. It also soothes the irritated portion of the lungs and other organs, and thus restores these parts to health. A superior property the medicine possesses over all others is that it contains no opium, calomel, or any other deleterious medicine.

In 1841 Dr. Schenck removed from Flemington, New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation excelled by none, in curing a disease that had heretofore been deemed incurable, and he has since then daily presented to the world incontestible evidence of his success.

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family. All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty.

This left nearly the last of his family he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer.

VOLUNTARY TESTIMONY.

We the subscribers, residents of Flemington do hereby certify that we are well acquainted with Dr. J. H. Schenck. He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup.
